Description

This stylish 544 m² villa is set on a generous 1,972 m² plot in a quiet and green area, where a sense of privacy is perfectly combined with convenient access to the golf club, restaurants, and resort infrastructure.

The bright interiors are filled with light, air, and harmony: high ceilings, panoramic windows, and natural materials — wood and stone — create an atmosphere of understated tropical elegance. The spacious living room flows seamlessly into the dining area and a modern kitchen with an island, forming a comfortable space for both everyday living and entertaining.

The villa features four cozy bedrooms with pleasant views of the garden and pool. The bathrooms are designed in a calm natural palette, while a standout feature is the outdoor shower, allowing you to fully experience the tropical lifestyle.

The true focal point is the beautifully maintained outdoor area with a long swimming pool reflecting the sky and palm trees. A lounge area with a bar sits nearby — the perfect setting for relaxation, gatherings, and warm evenings outdoors. The tropical garden enhances the sense of privacy and tranquility.

This is a home where comfort, nature, and style come together in perfect harmony.
